Overview

Background

The Court Services and Offender Supervision Agency (CSOSA or Agency) works with a range of businesses and organizations to achieve its mission and to support critical agency operations. Business opportunities with CSOSA are posted to Federal Business Opportunities on the System for Awards Management (SAM) [website](#).

SAM is the single government point-of-entry for Federal government procurement opportunities over \$25,000. Government buyers can publicize their business opportunities by posting information directly to the [website](#) via the internet. Through this one portal, commercial vendors seeking federal markets for their products and services can search, monitor, and retrieve opportunities solicited by the entire federal contracting community.

CSOSA purchases a wide variety of goods and services, and is committed to small business participation in the Agency's acquisition program. By helping firms identify procurement opportunities as early in the acquisition process as possible, the Agency hopes to improve communication with the business community with its marketing efforts.

Coverage

This Policy Statement applies to all CSOSA personnel, including employees, contractors, and interns. This policy also applies to external business entities or individuals that are interested in becoming a contractor/vendor with CSOSA.

Definitions

Contracting Officer (CO)

A person with authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the contracting officer acting within the limits of their authority as delegated by the contracting officer.

Contracting Officer Representative (COR)

An individual designated and authorized in writing by the contracting officer to perform specific technical or administrative functions.

Contract Specialist

A person in OA-P responsible for every phase of contract development from researching the federal regulations to negotiating the terms and preparing the solicitation and contract agreement as well as modifications as needed.

Contractor/ Vendor

An individual or business entity that has a contract to provide goods or services to an agency.

Unique Entity Identifier (UEI)

The UEI replaces the Data Universal Numbering System (DUNS) assigned by Dun and Bradstreet. The UEI is the official identifier for doing business with the U.S. Government as of April 4, 2022. Entities registering in the [System for Award Management \(SAM\)](#) are assigned a UEI as a part of the registration process.

Federal Supply Service Program (FSS)

A simplified process for procuring commonly used supplies or services by placing delivery orders against Federal Supply Schedule contracts that have been awarded by the General Services Administration (GSA) for use by numerous federal agencies.

North American Industrial Classification System (NAICS) NAICS (pronounced "Nakes") consists of codes developed by the Census Bureau. It is the standard business classification used by federal statistical agencies in classifying business establishments to collect, analyze, and publish statistical data related to the U.S. business economy.

Solicitation Any request to submit offers, proposals, bids, or quotations to the government. Generally, solicitations describe the government's requirements, anticipated terms and conditions that will apply to the contract, information required in the offeror's proposal, and (for competitive acquisitions) the criteria that will be used to evaluate the proposal and their relative importance. Solicitations under sealed bid procedures are called "invitations for bids." Solicitations under negotiated procedures are called "requests for proposals." Solicitations under simplified acquisition procedures may require submission of either a quotation or an offer.

Statement of Work (SOW) The portion of the contract that clearly and concisely defines requirements of the specific work, tasks, or services to be accomplished. Statements of work are individually tailored to consider the period of performance, deliverable items, if any, and the desired degree of performance flexibility. In the case of task-order contracts, the statement of work for the basic contract only defines the scope of the overall contract in general terms. The statement of work for each task order must articulate the specific requirements of the Agency.

System for Award Management (SAM) A consolidation of several procurement systems that allows small businesses to register to do business with the federal government, and represent/self-certify as a small business in one system.
